SL573 - Production Algorithm Baseline

Generated with the current PlaceWellPdfGenerator production path:
render_label_sheets -> compute_layout -> render_cell -> _draw_name -> _draw_qr

Scenario 1: nearest existing rectangle sizing copied as-is (11.5 pt / 5 pt min).
Scenario 2: proposed large-template base (56 pt / 5 pt min).

The QR remains current production behavior: 0.5 inch, ECC M, 2-module quiet zone.
No two-line cap, no custom wrapping, no style-specific POC sizes.
Temporary template configuration exists only in the generation process.
